Anchor's Point Owners:

Owners Update - March 20, 2014

There was a small electrical fire in the Kimberling Inn / Table Rock Resort Complex reported earlier today.

The fire was in Unit 311; a ground floor timeshare unit about 3 units west of Anchor's Point Unit 400. We understand that the fire was contained to the Unit with some damage to the unit above and adjacent to 311.

Stone County Fire Protection responded to the fire and have posted a brief summary and photos their Facebook Page at:

<https://www.facebook.com/sscfpd>

We thank the SCFPD for their quick response and containment of the fire.

We have had Bowling Construction inspect the closest Anchor's Point units for any smoke or other damage which may have resulted from the fire. Bowling has reported that there is no smoke, odor, or any other damage to the Anchor's Point Units inspected.

Thanks.....
