

**Anchor's Point Owners: Owners Update July 17, 2015**

As you may have read in the July 2015 Newsletter, the board has received numerous complaints concerning loud parties after the posted 10:00pm Quiet Time, using vulgar and offensive language, tampering with pool controls, and the destruction of the pool safety floats. Since the newsletter at least 2 calls have been made to the Kimberling City Police Department.

On behalf of Anchor's Point Owners, the APCOA Board has filed a formal complaint with the Kimberling City Police Department against such behaviors that disrupt and disturb the Anchor's Point area and tamper with or destroy property. Additionally, the board will pursue all possible legal action and remedies to preserve the peace and safety of the the complex and ultimately your investment in Anchor's Point.

What can you do? If you are disturbed by loud parties after the 10 pm quiet time or notice tampering with or destruction of equipment, call the Kimberling City Police at (417) 339-9117. The complaint has already been filed, but it takes your call to activate a police response. Likewise, if you are threatened in any way, call the police. The complaint has been filed and your call will activate the police response.

Our goal is to provide a safe and peaceful environment for our owners and guests.

Thank You for helping the Board solve this problem on behalf of all owners.
