

Anchor's Point Owners Update: March 3, 2017

Units 484 - 532:

A water leak in a main supply line to the Bridge View building (Units 484 - 532) has a major leak and the water has been shut off.

Kimberling City Plumbing will be on-site at 7:00am tomorrow; Saturday; March 4th, to begin the repair of the line.

Therefore, there will be NO running water in the units mentioned until the line is repaired.

We will keep you posted.

Units not mentioned above; which are units 400 - 482 are not affected by this shut off and do have running water.

Thanks.....
