

**Anchor's Point Owners:**

**Owners Update**

December 1, 2022

**Water System Maintenance & Water Outage:**

On **Tuesday; December 13, 2022**, we have scheduled the replacement of 2 valves in the Anchor's Point Water System.

This maintenance will require the Shut-Off of water to all Anchor's Point units from about 8:30am until about 4:30pm on December 13th.

Please be prepared for this outage with bottled drinking water and any other measures you may need.

When the water supply is restored, the water will be safe to use. No boiling or any other treatment will be necessary.

Thank You for your cooperation.
